

# Careers in Aviation

Stay well away from airports, airfields and aircraft.  
Never fly within 5km of an airport's flight restriction zone.

There are a lot of different job roles here at the CAA.  
Click the signs to see what they are and how to get involved.

## Career Entry Routes

Career entry routes can come through many different pathways, from technical routes studying at University, to Apprenticeships, Graduate programmes even Military routes. By expressing interest in work experience programmes, mentorships, Aviation & Aerospace youth groups such as; Scouts, Cadets and Gliding you gain great insight into the sector. Studying subjects like Science, Technology, Engineering and Maths are a great start to give you options into supporting your future career choices. We hope to see you very soon.
