

Wreck Your Tech

Taking apart gadgets such as a travel alarm clock, disposable camera, headphones, propelling pencil or a TV remote control is a great way to explore beneath the surface of objects, to find out and question how something works or how it was made.

Key Stage THREE	Age 11-14	Learning engineering, making observations, curiosity	Time 30 mins	Difficulty HARD
Materials old broken alarm clock, old pen, screwdriver, old tv remote, any other old tech				Teacher Pack NO
