Partner

Train your staff to become data literate with Excel and Power BI

Urge your team to use data more than ever before. Accuracy has never been so crucial.

Improve data efficiency in your team

Don't let your team suffer - increase your productivity and evolve your team to become fluent in data literacy.

Identify and retain more customers through data

Effective planning, presentation and data visualisation are crucial skills. Training your team in Power BI capabilities is the key to customer retention.

As a leading Microsoft Gold Partner, QA is embedding Microsoft learning content in their apprenticeships and degree apprenticeships. They are supporting our Get On skills campaign and have a forward-thinking approach to delivery that aligns with Microsoft's ambitious vision for apprenticeships.
